We Make Custom Easy

Signature is known for its dedication to helping customers achieve their unique vision for senior living and hospitality environments. We understand that you are incredibly busy and constantly have tight project timelines. So we offer a customization process that is fast, easy and doesn't require you to compromise your design vision to meet your deadlines.

DIGITALLY RENDERED ROOM SCENE

STEP ONE

INSPIRATION

The first step to creating a signature floor is simply for you to send us your inspiration for the carpet's design. From this inspiration, we then begin to make your vision a reality.

STEP TWO

DESIGN

Our expert Design Team uses the inspiration to create the carpet design and then provides a 2D digital rendering of the carpet for your evaluation. Working closely with you ensures the carpet design fully captures your vision.

STEP THREE

CARPET SAMPLE

Once the digital rendering of the design is approved, we create a physical sample of the carpet (a "strike-off") and provide it for your evaluation and approval. Digitally rendered room scene images using the design are also available upon request.

STEP FOUR

PLANNING + ESTIMATING

We then render floor plans using the design and provide estimated quantities for project accuracy through our experienced Planning and Estimating Team.

STEP FIVE

PRODUCTION

When the strike-off is approved, the order can be placed, and we create the custom carpet that is ready for installation. With a simple custom design process, Signature makes it easy for designers to create signature spaces.
