# HIGH PERFORMANCE MODULAR BACKING

Signature's vinyl composite carpet tile is engineered for strong performance with excellent tuft bind and dimensional stability. This product resists delamination, edge ravel, pilling and fuzzing, and withstands aggressive wet cleanings.

## RECOMMENDED INSTALLATION OPTIONS

Bevel | Bevel Accent and Grid | Grid Accent are designed with randomness constructed into the pattern to enable tile-ability on the floor. Allowing for no pattern match. Each style with multiple tiles create a unique installation.

--------------------	---------------------------------------

Specifications are based on averages from manufacturing processes and may vary within normal industry tolerances. Material supply and / or manufacturing processes may necessitate specification changes without notice. Such variations do not affect product performance. This carpet is manufactured and recommended for floor covering use only. As in all quality carpet, colors are subject to dye lot variations. These patterns contain inherent characteristics, which may result in pattern run off, and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Not all patterns and colors may be aesthetically acceptable with certain installation methods. Signature cannot be responsible for seam aesthetics if the installation method deviates from the recommended layout for that style. Chair pads are recommended under office chairs with rollers to preserve appearance retention, avoid premature or accelerated wear, and act as a deterrent toward delamination. Special backing systems are available that do not require chair pads. Walk off mats are recommended at building entry ways to reduce soiling. For Warranties to apply, all adhesives and seam sealers must be approved by Signature.
