PLANNING + ESTIMATING

CARPET SAMPLE

DIGITALLY RENDERED ROOM SCENE

STEP ONE  
**INSPIRATION**  
The first step to creating a signature floor is simply for you to send us your inspiration for the carpet's design. From this inspiration, we then begin to make your vision a reality.

STEP TWO  
**DESIGN**  
Our expert Design Team uses the inspiration to create the carpet design and then provides a 2D digital rendering (CAD) of the carpet for your evaluation. Working closely with you ensures the carpet design fully captures your vision. Digitally rendered room scene images using the design are also available.

STEP THREE  
**CARPET SAMPLE**  
Once the digital rendering of the design is approved, we create a physical sample of the carpet (a "strike-off") and provide it for your evaluation and approval.

STEP FOUR  
**PLANNING + ESTIMATING**  
We then render floor plans using the design and provide estimated quantities for project accuracy through our experienced Planning and Estimating Team.

STEP FIVE  
**PRODUCTION**  
When the strike-off is approved, the order can be placed, and we create the custom carpet that is ready for installation. With a simple custom design process, Signature makes it easy for designers to create signature spaces.
