GEOMETRY RE-IMAGINED COLLECTION

CARPET TILE

The historic train stations across our country display the beautifully used Octagon in their architecture as seen in the ceiling tiles and the black and white tiles on the floor. Then jumping decades ahead, unique structures such as the Vessel in New York Hudson Yard takes the hexagon to a whole new level. The visual of these shapes inspired the reinterpretation of the octagon in Signature's new carpet tile collection, Geometry Re-Imagined.
