# Rendezvous Landscapes

Rendezvous Landscapes, a broadloom guestroom collection, features timeless patterns that capture the elegance and diversity of nature. From fluid lines and textures reminiscent of desert terrains to animal-inspired motifs and cracked landscapes, each pattern offers a distinct yet harmonious style, making the collection versatile for hospitality guestrooms. The natural hues blend seamlessly, creating a timeless effect that welcomes guests with a sense of luxury and serenity.

Featuring six designs complemented by nine of Earth's natural palettes—including warm clay, lush green, and deep ocean blue—this collection brings warmth and tranquility to guestroom interiors. Constructed with 100% solution-dyed nylon and utilizing Infinity Tufting Technology, it offers refined visuals with incredible texture definition. The carpet patterns and colorations are designed to deliver clarity of detail and luxurious dimension.

Specifications are based on averages from manufacturing processes and may vary within normal industry tolerances. Material supply and / or manufacturing processes may necessitate specification changes without notice. Such variations do not affect product performance. This carpet is manufactured and recommended for floor covering use only. As in all quality carpet, colors are subject to dye lot variations. These patterns contain inherent characteristics, which may result in pattern run off, and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Not all patterns and colors may be aesthetically acceptable with certain installation methods. Signature cannot be responsible for seam aesthetics if the installation method deviates from the recommended layout for that style. Chair pads are recommended under office chairs with rollers to preserve appearance retention, avoid premature or accelerated wear, and act as a deterrent toward delamination. Special backing systems are available that do not require chair pads. Walk off mats are recommended at building entry ways to reduce soiling. For Warranties to apply, all adhesives and seam sealers must be approved by Signature.
