

MYSTIC HORIZONS

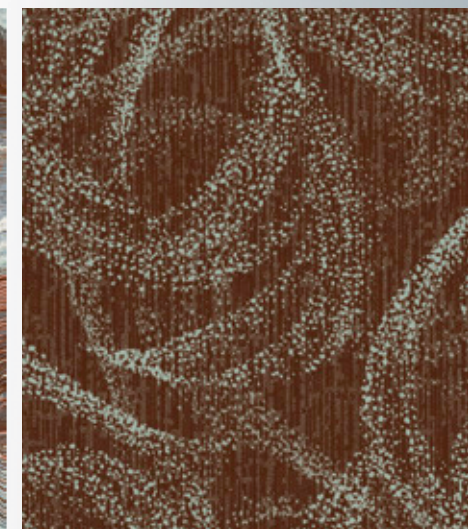

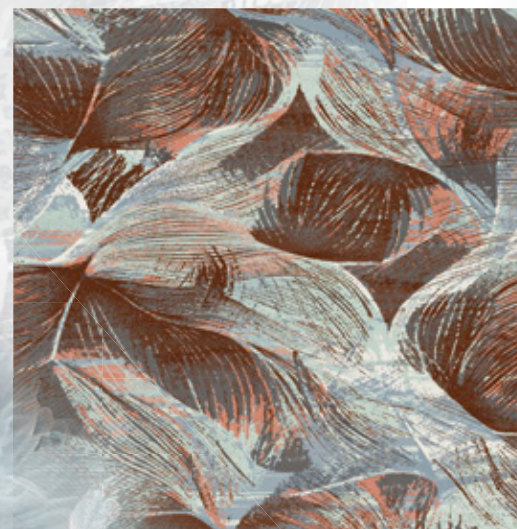

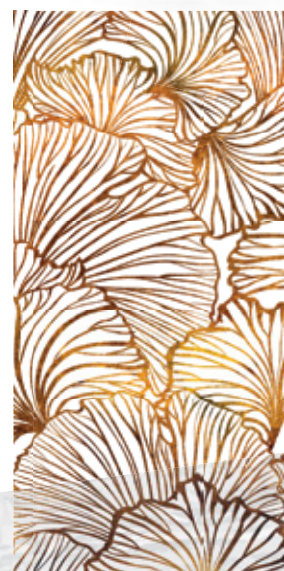

MYSTIC HORIZONS

A Visionary Fusion of Design

Mystic Horizons reimagines the hospitality interior, drawing inspiration from the cutting-edge synergy of AI, the metaverse, and the breathtaking beauty of the natural world. Developed in collaboration with Stacy Garcia Design Studio, Mystic Horizons carpet collection bridges the gap between nature and technology, infusing energy, harmony, and wonder into hospitality interiors. Created in broadloom and carpet tile to elevate ballrooms, public spaces, corridors, and guestrooms, the collection features free-flowing patterns inspired by the organic shapes of leaves and petals, artfully layered over geometric forms. The result is a mesmerizing tapestry of design that captures the imagination and transforms spaces into immersive experiences.

The ethereal color palette of *Mystic Horizons* is equally captivating, featuring soothing shades of blue reminiscent of tranquil skies and serene waters. Accents of coral and rust, inspired by the vibrant tones of sunrise, add a striking contrast, creating moments of unexpected brilliance. Designed to flow effortlessly from space to space, Mystic Horizons offers a futuristic elegance that invites guests into an unforgettable experience of serenity, innovation, and wonder.

CARPET SAMPLES

SG028

- STEP ONE: INSPIRATION**
The first step to creating a signature floor is simply for you to send us your inspiration for the carpet's design. From this inspiration, we then begin to make your vision a reality.
- STEP TWO: DESIGN**
Our expert Design Team uses the inspiration to create the carpet design and then provides a 2D digital rendering (CAD) of the carpet for your evaluation. Working closely with you ensures the carpet design fully captures your vision. Digitally rendered room scene images using the design are also available.
- STEP THREE: CARPET SAMPLE**
Once the digital rendering of the design is approved, we create a physical sample of the carpet (a "strike-off") and provide it for your evaluation and approval.
- STEP FOUR: PLANNING + ESTIMATING**
We then render floor plans using the design and provide estimated quantities for project accuracy through our experienced Planning and Estimating Team.
- STEP FIVE: PRODUCTION**
When the strike-off is approved, the order can be placed, and we create the custom carpet that is ready for installation. With a simple custom design process, Signature makes it easy for designers to create signature spaces.
