SKETCHES

Sketches is inspired by the classic drawing exercise of sketching. A sketch is described as a rapidly executed free-hand drawing. It may serve a number of purposes: a record of something that the artist sees, development of an idea for later use or simply capturing a sense of volume, movement or perspective. Using a free-hand drawing method allowed each pattern in the collection to develop with unique elements and textures.

Sketches mix of eight designs focuses on a linear and geometric patterning to create balanced compositions while utilizing the Infinity multi-level technology to develop depth. The black and white color palette is inspired by the simple beauty of charcoal or graphite on basic parchment paper. All the artistry of Signature's Sketches to bring an original aesthetic to your next hospitality project.

GESTURES

Inspired by the art method of gestural painting. Most closely associated with Abstract Expressionism, gestural painting is characterized by energetic, expressive brushstrokes deliberately emphasizing the flow of the artist's arm or movement of the hand. The various styles of brush strokes are thought to express the artist's emotions and personality just as a person's bodily actions convey the same in verbal conversations.

The patterns were developed using a variety of brush techniques with each creating interesting variances in stroke width, pressure and length. Leaving the color palette in crisp black and white allows the imagery to shine using the Infinity multi-level tufting capabilities to influence gradient changes. Gestures offers eye-catching options to express the personality of your next hospitality project.
