Connections Happen At The Crossroads.

CROSSROADS NATURE'S FUSION

In senior living design, connections are everywhere—between residents and caregivers, between public and private space, and between residential warmth and elevated performance. Here, design becomes more than a surface—it becomes a framework for living, working, and healing. These connections foster well-being, support dignity, and bring calm to spaces people rely on.

Signature Flooring begins at that crossroads—where purpose meets design. Through soft texture, biophilic design and color, and seamless transitions we create flooring that brings residential comfort with lasting performance.

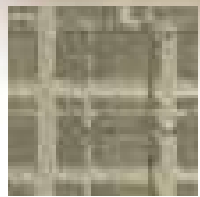

Two of our latest introductions, **Crossroads Collection** carpet tile and **Nature's Fusion Collection** Loose Lay LVT, coordinate soft, woven-inspired texture with organic wood and stone visuals for serene, connected environments. Because the most meaningful spaces don't just perform—they inspire connection.

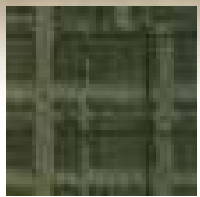

CARPET TILE CROSSROADS

Signature Crossroads carpet tile is a smart choice for senior living because it helps reduce noise in busy corridors and common areas while providing a stable, comfortable surface underfoot. And with our build-in moisture barrier backing, spills are easier to manage and you can replace only the affected tiles—saving money and minimizing disruption of residents and staff.

- Five Patterns - Cardigan, Denim Fade, Flannel Chic, Madras, Streetwear
- Infinity Tufting Technology
- 100% Solution Dyed Nylon
- 19 oz. Tufted Pile Weight
- Stain & Soil Release Technology or upgrade to Signature Secure

alzheimer's association®

These seven colors support a meaningful mission - a percentage of the proceeds from the sales specified for senior living projects will be donated to the Alzheimer's Association on orders placed effective March 1, 2026 through August 28, 2026.

LOOSE LAY LVT
NATURE'S FUSION

GRAINLINE *&* STONESET

Signature's Nature Fusion LVT is a great solution for senior living spaces because it delivers the warm, biophilic look of natural materials with the durability and easy cleanability facilities need for high-traffic spaces. It stands up to wheelchairs and rolling loads while supporting underfoot traffic when specified with the right performance and maintenance requirements.

- Loose Lay Construction
- Available in 9.25"W x 59.25"L plank size and 18"W x 36" L tile size
- Square edge profile
- 5mm overall thickness
- 20 mil wear layer
- Commercial Reinforced Ceramic Coating
- Water, stain, scratch and scuff resistant
- Inherent thickness promotes acoustical benefits and comfort underfoot
- Twice as thick as traditional LVT for seamless transition to Signature's carpet tile products
- Low maintenance
- Immediate occupancy
- FloorScore Certified
- Contains up to 25% recycled PVC Content
- Made In the USA
- Limited 15 Year Commercial Warranty

SEAMLESS TRANSITIONS

Signature offers a complete portfolio of Carpet Tile and Loose Lay LVT solutions designed to work seamlessly together. Our Loose Lay LVT integrates perfectly with our carpet tile products allowing for no transition and a seamless installation.

CARPET TILE

MONARCH COLLECTION

Inspired by the delicate symmetry and vibrant colors of butterfly wings, Rendezvous Monarch captures the essence of elegance and fluidity, making it a stunning addition to any design. This collection offers a harmonious blend of intricate patterns and rich textures, creating a visual tapestry that brings the enchanting allure of the natural world into the heart of senior living environments—creating a calming, uplifting, and residential-feeling setting that supports resident wellbeing and positive daily experiences.

- Interlude and Flight Running Line Patterns
- Four Alternate Patterns Available
- 24" x 24" Carpet Tile
- 100% Solution Dyed Nylon
- ColorPoint Tufting Technology
- 32 oz Tufted Pile Weight
- Stain and Soil Release Technology
- Moisture Barrier Backing
- BioCel Cushion Backing Optional
- CRI Green Label Plus Certified
- HPD's and EPD's available
- Made in USA
- Limited Lifetime Commercial Warranty

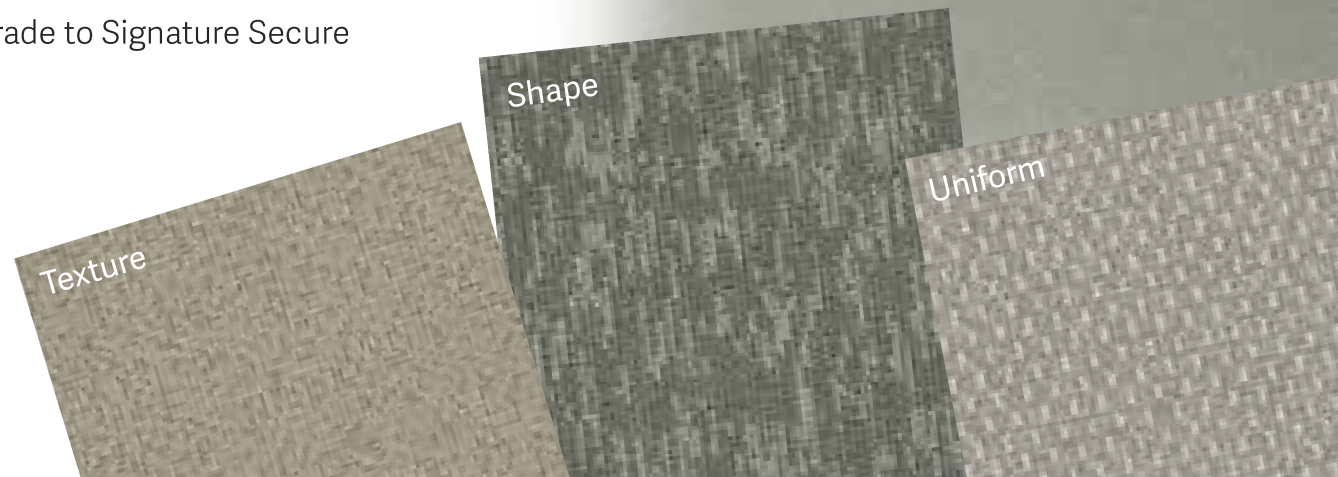

Private Spaces Meet Purposeful Design

BROADLOOM COMMON THREADS

- Stain and Soil Release Technology or Upgrade to Signature Secure
- 12' width
- CRI Green Label Plus Certified
- HPD's and EPD's available
- Made in USA
- Limited 10 Year Commercial Warranty

MOISTURE BARRIER PERFORMANCE BACKINGS

Corebac MB and BioCel MB Cushion are high-performance moisture barrier backings ideally suited for senior living environments, where spill protection, durability, and comfort are essential. Both products provide a top-down moisture barrier that keeps liquid spills above the pre-coat layer for a minimum of 24 hours, as tested under the British Spill Test—helping protect subfloors and simplify maintenance.

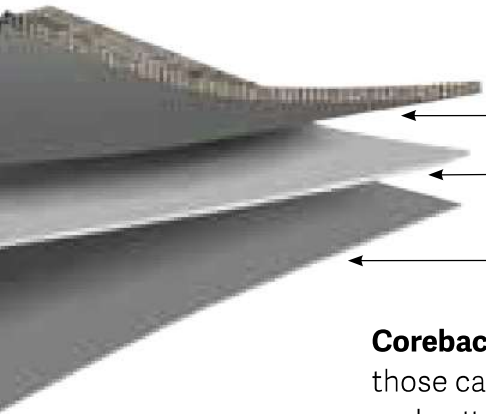

Primary Backing
Locks tufts in and maintain pattern integrity

High Strength Polymer Pre-Coat
Provides strong tuftbind, prevents delamination

BioCel Cushion
Delivers top-down moisture barrier, sound-insulating properties, thermal insulation and comfort underfoot

Gray 100% Post-Consumer Recycled PET Secondary
Excellent dimensional stability

BioCel MB Cushion incorporates polymers derived from natural oils—renewable resources that replace a portion of petroleum-based content—sourced from American-grown soybeans. In addition, BioCel MB Cushion contains a highly refined mineral compound recycled from previously mined calcium carbonate. This material's unique chemical properties enhance the strength and dimensional stability of the polyurethane backing. With over 60% post-consumer recycled PET in the backing fabric, BioCel MB Cushion combines recycled, recovered, and renewable content—and is 100% recyclable. Its moisture management, strength, flexibility, and ease of installation make it an ideal choice for senior living environments.

High Strength Polymer Moisture Barrier Pre-Coat & Adhesive
Locks the tufts in providing a strong tuft bind and maintaining pattern integrity while providing a moisture barrier which passes the British Spill Test

High Strength Polymer - Skip Coat
Light coating to woven secondary which prevents delamination

Woven Polyester/Polypropylene Secondary
Helps maintain dimensional stability

Corebac MB is a great choice for carpet moisture management and those carpets featuring large-scale patterns offering excellent durability and pattern alignment. Its high-strength polymer, laminated to a woven secondary backing, enhances stability while enhancing resistance to edge raveling and delamination.

SIGNATURE SECURE STAIN & SOIL PROTECTION

Signature Secure was engineered with acid-based stain concerns in mind. It combines advanced stain resistance with superior soil cleanability, giving facilities managers and designers confidence that Signature carpets will perform under pressure— without compromising aesthetics or sustainability.

ENTRYWAY SYSTEMS

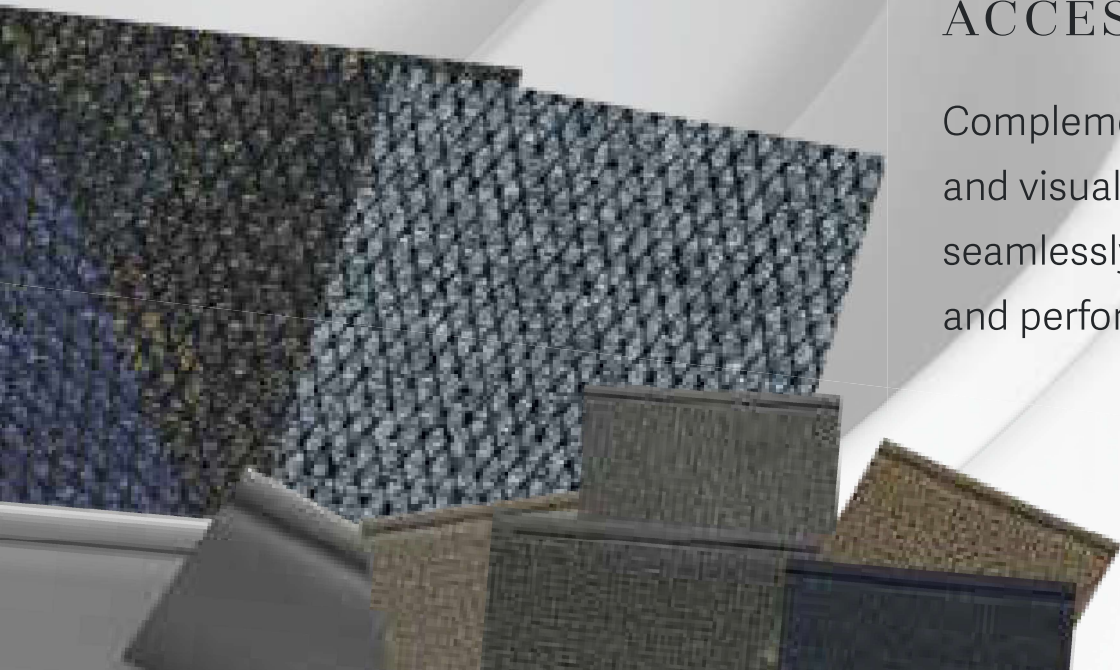

At the critical point of entry, Signature's **Trellis II** and **Terrane Entryway Systems** are engineered to perform under the most demanding conditions, protecting interior flooring surfaces from the damaging effects of tracked-in dirt, debris, and moisture. These high-traffic walk-off solutions help extend the life of surrounding flooring, reduce maintenance requirements, and support slip-resistance standards — contributing to safer, cleaner, and more cost-effective spaces.

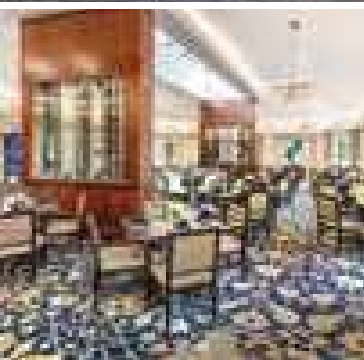

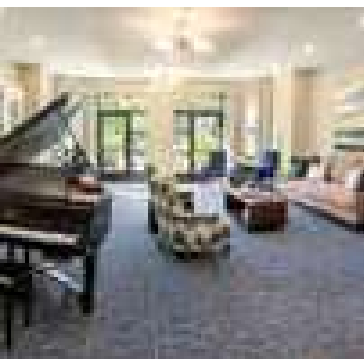

ACCESSORIES

Complementary accessories that support both performance and visual harmony—from cove base to entry systems—seamlessly transition every space with durability, design, and performance in mind.

RUGS • ENTRYWAY SYSTEMS • CARPET COVE BASE •
RUBBER WALL BASE • MOISTURE BARRIER BACKINGS
• SECURE STAIN AND SOIL TECHNOLOGY • CUSHION
UNDERLAYMENTS • ADHESIVES AND SUNDRIES

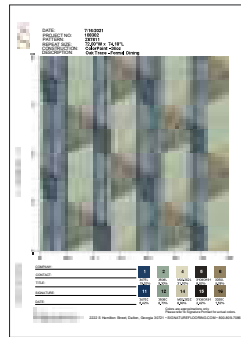

Signature Spark We Make Custom Easy

SignatureSPARK allows you to recolor custom carpet patterns and create tackboards, manage project assets, find inspiration and more.

Signature is known for its dedication to helping customers achieve their unique vision for hospitality environments and senior living. We understand that you are incredibly busy and constantly have tight project timelines. So we offer a customization process that is fast, easy and doesn't require you to compromise your design vision to meet your deadlines.
