

# Whisper

A BREATH OF STILLNESS

In a world that moves quickly, Whisper offers a gentle pause—a quiet moment drawn from nature’s most delicate rhythms. Inspired by the graceful sway of tall grasses, the weightless drift of dandelion seeds, and the soothing pull of the wind across an open landscape, this pattern captures the poetry of movement without motion.

Designed specifically for guest rooms, Whisper introduces a sense of calm through tonal color and gentle directionality—bringing quiet structure and natural softness to the space. With refined simplicity and understated elegance, it transforms the guest experience, creating a restful retreat that feels both timeless and effortlessly serene.
