**Signature Flooring Launches Trellis II and Terrane Entryway Systems**  
*Engineered to Performance Under the Most Demanding Environments*

**Dalton, Georgia – March 24, 2026** – Signature Flooring proudly announces the launch of its newest high-performance flooring solution, **Trellis II** and **Terrane Entryway Systems**—engineered to protect interiors, elevate design, and perform in the most demanding environments.

At the critical point of entry, where exterior elements meet interior spaces, Trellis II and Terrane are designed to do more than make a first impression—they create a foundation for long-term performance. These advanced walk-off systems are engineered to perform under the most demanding conditions, protecting interior flooring surfaces from damaging effects of tracked-in dirt, debris, and moisture.

From hotel entrances to active senior living communities, bustling multifamily lobbies to high-use commercial thresholds—every environment benefits from a strategically installed walk-off system. Signature Flooring partners closely with design teams, ownership groups, and procurement professionals to recommend, specify, and deliver entryway solutions tailored to each project’s unique performance and aesthetic needs—ensuring protection, safety, and performance from the very first step.

Trellis II features a nonwoven needlefelt construction with a multi-level patterned loop surface, delivering both durability and visual texture. Available in 18 colorways ranging from grounded neutrals to bold accents, it includes up to 25% pre-consumer recycled content and offers customization options such as logos, insets, and borders—making it ideal for branded environments. Engineered for performance, Trellis II features a 37 oz. face weight, 59 oz. total weight, and is available in a standard 13’2” width, with custom sizing options available. It features DB Duo Gel Backing with Non-Skid and Quad Back with Non-Skid for custom or branded logos or insets, offering enhanced durability and stability.

Terrane offers a clean, solid loop surface for a more streamlined aesthetic while maintaining the same high-performance benefits. Also available in 18 versatile colorways, Terrane supports customization through sizing, logos, and insets to meet a wide range of commercial applications. It features a 30 oz. face weight, 60 oz. total weight, and a standard 13’2” width, with custom sizes available. Like Trellis II, Terrane features DB Duo Gel Backing with Non-Skid and Quad Back with Non-Skid for custom or branded logos or insets, for both reliable performance in high-traffic environments.

Both systems feature ADA-approved edging options and a limited 5-year commercial warranty. Engineered to meet rigorous testing standards for dimensional stability, flammability, and colorfastness, they are built for consistent, long-term performance. For semi-permanent installations, entrance systems must be at least 10 feet in length and maintained on a weekly basis to ensure optimal performance.

With Trellis II and Terrane, Signature Flooring delivers more than an entryway solution—it establishes a smarter first line of defense for every space. Engineered for the most demanding conditions, these systems help protect interior surfaces from dirt, debris, and moisture while delivering a balance of durability, customizable design, and safety – creating cleaner, safer, and more resilient environments from the moment guests arrive.

Performance begins at the threshold. Explore Trellis II and Terrane and start designing smarter entryways today at [www.signatureflooring.com](http://www.signatureflooring.com)

### **About Signature Flooring**

Signature Flooring has a rich history of service, innovation and creativity. Since its founding in 1998, Signature has been providing client's properties with boutique custom broadloom carpet and rugs designed specifically for public space and guest room environments. Over the last 25 years, that focus has taken the company from boutique to nationally recognized brands offering the best in customer care and world-class carpet design. Focused solely on helping clients create extraordinary hospitality, senior living, and multifamily spaces. Signature is fueled by a passion for their craft and a complete dedication to service. They are driven to achieve exceptional flooring solutions that expand each client's vision. Signature is one of the largest vertically integrated manufacturers offering custom carpet, broadloom carpet, carpet tile, rugs, entryway systems, and hard surface products. They continue to introduce beautiful custom collections, curated/personalized customs, running line options, and their SignatureNOW program for sensitive time projects [www.signatureflooring.com](http://www.signatureflooring.com)
