NATURAL EDGE

Natural Edge is shaped by the quiet detail of wood in its natural state—linear grain, subtle pattern variation, and tonal color shifts that feel familiar without being overstated. Influenced by biophilic design, the collection brings a considered sense of warmth and visual structure to hospitality and commercial interiors while maintaining a clean, tailored appearance. These visual details give the collection dimension and depth without overwhelming the overall design, making it equally suited for understated interiors and more layered schemes.

The color line is drawn from nature, moving from pale, sunlit tones to warm clay, oak, umber, and mineral-inspired neutrals. The collection serves as a versatile foundation within Signature’s portfolio of coordinated flooring solutions. Designed to perform in commercial interiors, **Natural Edge** brings a refined sense of natural character underfoot—supporting spaces that feel warm, intentional, and quietly enduring.
